

On behalf of Mr. Roland Johnson, owner of a significant amount of Davison County agricultural land. The following is submitted for your serious consideration as you determine the course of the future of Davison County.

Regarding environment and economics I have attached the true cost of wind report pdf along with the articles in the links below.

As you know Lincoln County SD has been addressing the wind energy issue and is set the review this issue on 4-4-17 as well. Please also see attached wind recommendations pdf which is a summary of minimal recommendations. Attorney AJ Swanson's letter is particularly important.

Also included in this email are PDF's addressing concerns raised in Lincoln County that are germane to ours in Davison County.

There is an additional concern that has yet to be addressed by planning and zoning, which has a significant negative impact on rural life in Davison County.

All the Best,
