Plan Incorporation

To ensure that this plan functions smoothly with local priorities, the Davison County Emergency Management Director, as well as other individuals responsible for implementing aspects of this plan, should be familiar with these planning documents. To help encourage the flow of information, it is expected that the Emergency Management Director will appear at least annually at a city council meeting in each city to provide an update on plan implementation and to obtain additional input on local mitigation priorities.

Plan Implementation

Each jurisdiction participating in this plan will play a critical role in carrying out the plan's mitigation strategy. It is anticipated that the governing body of each jurisdiction will appoint an individual who will be responsible for ensuring this happens. This individual will be responsible for understanding the mitigation plan, and would represent the jurisdiction at the Davison County Local Emergency Planning Committee's annual mitigation plan review meeting. **DOES MITCHELL HAVE AN EMERGENCY PREPAREDNESS COMMITTEE? IF SO, WHO IS ON IT?**

Plan Monitoring and Evaluation

The primary responsibility for monitoring the plan and evaluating its effectiveness lies with the Davison County Emergency Management Director. The director will work with the support of the Davison County Local Emergency Planning Committee (LEPC), which meets monthly.

Public Involvement

Throughout the development of this plan update, a sustained effort was made to involve the general public in the plan. Outreach included press releases and agendas that were published in the local newspapers and on community websites. Looking forward, the outreach strategy will evolve over time as different methods are used to get greater public participation in the mitigation planning process. Once approved, the plan will be available for the public to see at the county courthouse and in each city office. It also will be made available on the Davison County website. Other outreach activities may include:

- Visits by the Emergency Management Director to local schools, civic meetings, etc.
- Press releases and articles about the plan published in the Mitchell Daily Republic.
- Information about the plan included with utility billing statements.
