Subject: **proposed wind farms**

I am writing in regards to the proposed wind farm in Davison County. I am totally against them. After researching the health problems they create, I don't want them anywhere in Davison County; let alone 1000 feet from someone's residence. The disadvantages to wind farms far outweigh the advantages. The sound and the constant "blinking" of the sun caused by the turbines are both bad for your health. As a migraine sufferer, the constant "blinking" or blocking of sun at intervals would cause me ;headaches. I am asking you to vote against the wind farms for our county. Keep Davison County a beautiful county; not dotted with eyesores.
