

To Access Property in the County

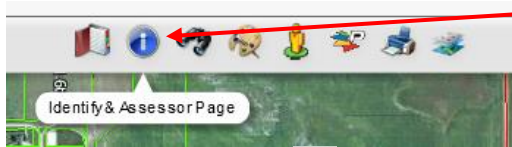

1. Go to http://www.districtiii.org/gis/interactive_mapping.php
2. Click on Davison County (Note: there are several other counties/cities you can view).
3. This will bring up the Map Contents Options, where you should be sure Sections and Parcels is checked.

4. In the top right corner of the map, you will see another set of options. Be sure you are on "mixed".

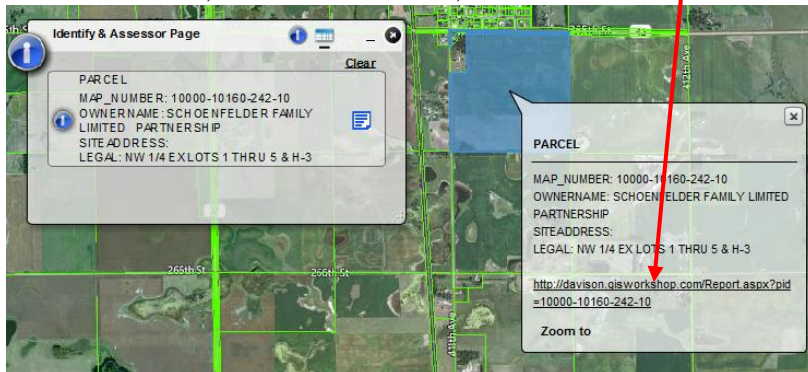

5. If you would like parcel information, click on the "I" in the top center of the map.

6. Then, click on the 

7. Then, click on the property you want the information for. If you want additional information, such as land value, click on the link.

8. This will show you most information the county has on the property, as shown in the example below.
