Davison County Drainage Board Agenda  
March 24, 2015

1. Call to order by Administrator Bathke at 7:00 P.M.
2. Roll Call
3. Oath of Office – All Board Members.
4. Accept nominations for Chairman and turn the meeting over.
5. Accept nominations for Vice-Chairman.
6. Approve the agenda.
7. Approve the minutes from October 29, 2014. There were no meetings in November, December, January, or February.
8. Public comment and citizen complaints.
9. Administrative Approvals.
  1. Feilmeier/Stehly
  2. John Wiczorek
10. Administrative Updates
  1. Gerald Claseman
  2. Beverly Rowley
11. Richard Reimnitz – Report/letter
12. Charles Storm has made an application for a drainage permit to drain into his vested open ditch and alter the vested rights of the open ditch. The location to drain is the NE ¼ of Section 28, Tobin Township; which will drain into the NW ¼ of Section 27, Tobin Township.
13. Miscellaneous items.
  1. Drainage Board Manual Updating
14. Set time and date for the April 2015 drainage meeting – *April 21, 2015 @ 7:00 P.M.*
15. Adjournment.

*Nathan Wegner*

Nathan Wegner  
Planning & Zoning and Emergency Management Deputy Director

**DRAINAGE BOARD**  
**October 29, 2014**

**CALL TO ORDER**

Chairman Schilling called the regular meeting of the Davison County Drainage Board to order at 7:00 p.m. Auditor Kiepke took roll call as follows: Members of the Board present were Mark Schilling, Chet Edinger, Jay Larson, Jerry Buchholz, Gregg Bult, Commissioners Kiner and Bode. Ex-Officio members present were Drainage Administrator Bathke, Deputy Wegner, Highway Superintendent Weinberg and Auditor Kiepke. Absent Director of Equalization Goetsch.

Guests – Brad and Sarah Olson, Kyle Busasmus, Sylvia Miiller, Deon Miiller, Beverly Rowley, Virgil Schoenfelder, Darwin Miiller, Jerry Claseman, Matt Healy, Gary Busasmus.

**OATH OF OFFICE**

Auditor Kiepke administered the oath of office to new Drainage Board member Brenda Bode.

**APPROVE AGENDA**

Motion by Larson, second by Edinger to approve the agenda for the October 29, 2014 meeting. All members voted aye. Motion carried.

**APPROVE MINUTES**

Motion by Buchholz, second by Kiner to approve the minutes of the July 15, 2014 meeting. All members voted aye. Motion carried.

**ADMINISTRATIVE APPROVALS**

Drainage Administrator Bathke reported that Tim Storm is cleaning out an existing open drainage ditch that is a three (3) dot blue line NE of the farmstead and ties into the three (3) dot blue line to the SE in Section 35 and 1300' to the north of the farm. The property is legally described as the SW ¼ of Section 26 T 101 N R 61 W of the 5<sup>th</sup> P.M., Tobin Township, Davison County, SD. Mr. Storm owns the vested drainage rights so no waivers from neighboring property owners, nor a hearing before the board were necessary.

Deputy Drainage Administrator Wegner reported that Tom Freidel, renter of the Fergen property discussed at the July Drainage Board meeting, has gathered waivers from the four required landowners and has returned his drainage application so as to qualify for administrative approval. The property is legally described as the SE ¼ Ex H-1 & H-2 & Ex the SE ¼ of SE ¼ of SE ¼ & the E ½ of the NE ¼ of the SE ¼ of Section 27 T 101 R 60 W of the 5<sup>th</sup> P.M., Rome Township, Davison County, SD.

**CLASEMAN DRAINAGE RECONSIDERATION**

Jerry Claseman's drainage project on property legally described as the NW ¼ Ex A M P S 6, 8, 9 & 10 Ex that portion between previous platted Lot P & Lot M W Easterly Boundary located 315' (ft) from Western Boundary of said property & Ex E 110' (ft) of W 709.9' (ft) of N 5626' (ft) of Section 29, T 103 N R 60 W of the 5<sup>th</sup> P.M., Mitchell Twp, Davison County, SD was previously denied on September

23, 2011. At the July 15, 2014 meeting Mr. Claseman was instructed to either close up the ditch or extend it 500' (ft) passed the three neighboring properties with a deadline of November 15, 2014.

Tonight, Mr. Claseman is asking the Board to reconsider the decision the Board made at the July 15<sup>th</sup>, 2014 meeting. Mr. Claseman cited Section 2.04 of the Davison County Drainage Ordinance as reason to overturn the decision.

Mr. Claseman reported that Matt Healy of Puetz Corp. did a survey for him. Mr. Claseman believes it is within his legal rights to leave the property as is.

Brad and Sarah Olson, neighbors of Mr. Claseman, stated that the way the area is shaped and sloped they are going to have more water on their land, will have more problems with their septic system and the water will remain longer.

Virgil Schoenfelder expressed concerns with regards to extending the ditch 500' (ft). He stated that the dam already backs up. He believes this would potentially drain more water to his land.

Motion by Larson, second by Edinger to amend the motion made at the July 15<sup>th</sup>, 2014 meeting to state that Mr. Claseman needs to replace the soil that was removed from the south edge of the ditch back 150' (ft) and make the rest of the ditch no deeper than the bottom swale to be completed March 20, 2015. A drainage permit is required. A roll call vote was taken as follows. Kiner – aye, Buchholz – aye, Bode – aye, Bult – aye, Edinger – aye, Larson – aye, Kiner – aye, Schilling – aye. Motion carried.

#### **ROWLEY DRAINAGE UPDATE**

As noted at the last two meetings the property belonging to Bev Rowley, legally described as the SW ¼ Ex SW ¼ of the SW ¼ of Section 24 T 104 N R 60 W of the 5<sup>th</sup> P.M., Perry Twp, Davison County, SD will require a drainage permit be completed. However, the \$100 fee will be waived. Ms. Rowley reported that she has been unable to obtain a waiver from one neighbor, Jim Rec Ag, as they will not sign until Kevin Gebel's drainage matter is handled and they don't meet again until April 2015. The process will continue and administrative approval may be granted when complete.

#### **CARLSON DRAINAGE UPDATE**

In the past, the Drainage Board has considered a drainage matter brought forward by Kenneth Carlson (now deceased) whose property is legally described as the NE ¼ & Lot 3B in the NW ¼ of Section 1 T 104 N R 62 W of the 5<sup>th</sup> P.M., Blendon Twp, Davison County, SD. Mr. Carlson alleged that several land owners were draining without proper permits, which was alleged to be causing a safety hazard.

Debbie Holmes, trustee of land, has stated that the current renters don't currently see any problems. Deputy Drainage Administrator Wegner consulted with former Drainage Administrator Sudrla to gain a little more history. Sudrla had little recollection of the matter.

Motion by Bult, second by Larson to table the Carlson matter until October 30, 2016 and see if any problems arise. A roll call vote was taken as follows. Buchholz – aye, Bode – aye, Bult – aye, Edinger – aye, Larson – aye, Kiner – aye, Schilling – aye. Motion carried.

#### **SET TIME FOR FUTURE MEETINGS**

Motion by Bult, second by Edinger to set 7:00 p.m. as the regular meeting time for all future Drainage Board meetings. All members voted aye. Motion carried.

**ADJOURN**

At 8:12 p.m., Chairman Schilling adjourned the meeting.

**ATTEST**

Dear Trent:

You previously received a Potential Violation letter as per FSA 569 dated 12/30/12 on Tract 269 (3-101-62). I am sending you this letter to inform you that I DID NOT find a violation in regards to the above listed legal description.

Thank you for your cooperation.

Sincerely,

**Deke Hobbick**  
Resource Conservationist

Richard,  
Here is a letter  
stating there is a  
non violation.  
Thought be quicker  
just to send it  
to you.  
Any more questions  
please call.  
Thanks

9/17/2014

**CERTIFIED MAIL – RETURN RECEIPT REQUESTED**

**Trent Reimnitz**  
301 W 11<sup>th</sup> Ave  
Mitchell, SD 57301

Dear Trent:

As a result of your request for an evaluation of proposed wetland activity via form FSA-569 the Natural Resources Conservation Service (NRCS) is issuing a preliminary certified wetland determination.

The regulations for the Wetland Conservation (WC) compliance provisions of the 1985 Food Security Act, as amended, are found at Title 7 Code of Federal Regulations (7 CFR) §12. The purposes of the provisions are to remove certain incentives for persons to produce agricultural commodities on highly erodible land or converted wetland.

The regulations describe several exemptions (7 CFR §12.5 (b)) from ineligibility and outline the NRCS involvement in implementing the WC Compliance provisions. This determination was conducted in accordance with the current federal wetland delineation procedures as found in the most current versions of the National Food Security Act Manual (NFSAM), the 1987 United States Army Corps of Engineers (USACE) Wetland Delineation Manual, Technical Report Y-87-1, the USACE Regional Supplements, and/or State Offsite Methods/Mapping Conventions.

With this letter the NRCS is issuing a **preliminary technical determination**, in accordance with the WC Compliance provisions. This preliminary technical determination was conducted by the NRCS on 9/12/14. The attached NRCS-CPA-026E, Highly Erodible Land and Wetland Conservation Determination, and map depict the wetland exemptions, referred to as "labels". The area identified other than Non-Wetland is wetland for the following reasons:

**Presence of Hydrophytic Vegetation:**

Hydrophytic vegetation means plants growing in water or in a substrate that is at least periodically deficient in oxygen during a growing season as a result of excessive water content (16 U.S.C. §3801(a)(12)).

**Presence of Hydric Soils:**

Hydric soil means soil that, in its undrained condition, is saturated, flooded, or ponded long enough during a growing season to develop an anaerobic condition that supports the growth and regeneration of hydrophytic vegetation (16 U.S.C. §3801(a)(13)).

**Presence of Wetland Hydrology:**

Wetland hydrology means inundation or saturation of the site by surface or groundwater during the growing season at a frequency and duration sufficient to support a prevalence of hydrophytic vegetation. (7 CFR §12.2).

7

The wetland area(s) were evaluated for applicable exemptions and labeled accordingly.

You may appeal this preliminary technical determination in accordance with the laws and federal regulations set forth at 7 CFR §614, the NRCS Appeals Procedures, 7 CFR §780, the Food Security Act Appeals Procedures, and 7 CFR §11, the National Appeals Division (NAD) Rules of Procedure, as follows:

- **You may request a field review and reconsideration** by the NRCS in accordance with 7 CFR 614.7(b). Any request for field review and reconsideration will be conducted with you or your authorized representative present, where you will be able to present evidence that NRCS may not have previously considered. The NRCS will consider all new information.
- To request a field review and reconsideration, you must contact the NRCS, in writing, **no later than 30 days** from the date that you receive this notification at:

National Resource Conservation Service  
1820 N Kimball St  
Mitchell, SD 57301

- **If you do not request a field review, you may request mediation** of the preliminary technical determination in accordance with 7 CFR 614.7(a)(2). Mediation is completed in good faith. Parties mediating a dispute are not free to make their own law or policy and mediation is not a means to obtain a result not otherwise permissible under statute, regulations, or generally applicable agency policy and program procedures. Within these parameters, mediation of disputes can produce benefits when the mediation reveals additional relevant facts and new insights.

To request mediation you must contact Mr. Gerald E. Jasmer in writing **no later than 30 days** from the date that you receive this notification at:

State Resource Conservationist  
Natural Resources Conservation Service  
200 Fourth Street SW  
Huron, South Dakota 57350-2475  
Phone: (605) 352-1234  
Fax: (605) 352-1261

- **You may request a waiver of your rights** to this preliminary review and reconsideration or mediation in accordance with 7 CFR §614.7(d) if you want an immediately-final wetland technical determination by writing to the State Conservationist at:

Jeffrey J. Zimprich  
Natural Resources Conservation Service  
200 Fourth Street SW  
Huron, South Dakota 57350-2475  
Phone: (605) 352-1234  
Fax: (605) 352-1261

If you do not select any of your preliminary appeal rights, this preliminary technical determination will become both a final technical determination in accordance with 7 CFR §614.8(a)(1) and a certified wetland determination in accordance with 7 CFR §12.30(c). A technical determination becomes a final USDA decision when the time to request appeal expires without appealing the decision. A final technical determination becomes appealable 30 days after receipt of the preliminary technical decision.

If the final technical determination is a result of the expiration of the 30-day period following receipt of this preliminary technical determination, it may be appealed, **within 30 days**, to either of the following:

- Appeal to the **Davison/Hanson County Farm Service Agency County Committee**  
OR
- Appeal to the NAD at the following address:

National Appeals Division, Western Regional Office  
755 Parfet Street, Suite 494  
Lakewood, Colorado 80215-5506  
Phone: (800) 541-0483 or (303) 236-2862  
TTY: (800) 497-0253  
Fax: (303) 236-2820

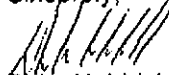

It is your responsibility to ensure that your actions do not impact wetlands protected by a United States Fish and Wildlife Service (FWS) or any other conservation easement. For any questions regarding FWS conservation easements on the tract or adjacent land, please contact the wetland management district office located in **Lake Andes, SD at (605) 487-7063**. For any other easements, please contact the local NRCS office.

This preliminary technical determination has been conducted for the purpose of implementing the WC compliance provisions of the 1985 Food Security Act, as amended. This determination may not be valid for the Clean Water Act. If you intend to conduct any activity that constitutes a discharge of dredged or fill material into wetlands or Other Waters, you should request a jurisdictional determination by contacting the United States Army Corps of Engineers (USACE) at **(605) 224-8531**, Pierre, SD, before starting the work.

There may be opportunities to utilize mitigation if you have an interest in converting the labeled wetlands (W's), farmed wetlands (FW's), and farmed wetland pasture (FWP), found in this determination. Mitigation is the compensation of lost wetlands through wetland restoration, enhancement, or the creation of new wetlands. Mitigation can not occur at the expense of the federal government. Mitigated wetlands must be in the same local watershed as the wetlands you wish to convert. The landowner must grant an easement that remains in effect as long as the original wetland remains converted and the easement will be recorded on public land records for the mitigated wetlands. All of the above activities, as well as, a mitigation plan, must be completed before any wetland conversions could occur.

**If you are the owner of this tract of land and have a tenant, I urge you to discuss this letter and accompanying NRCS-CPA-026E with your tenant. Likewise, if you are the tenant of this tract of land, I urge you to discuss this letter with your landlord.**

Sincerely,

Deke Hobbick  
Resource Conservationist

**\*DEFINITIONS OF WETLAND LABEL CODES**

AW	<u>Artificial Wetland:</u> An area that was formerly a non-wetland area under natural conditions but now exhibits wetland characteristics because of the influence of human activities. These areas are exempt from the Food Security Act of 1985, as amended. This label includes irrigation induced wetlands.
CC	<u>Commenced Conversion:</u> A wetland, farmed wetland, farmed wetland pasture, or converted wetland on which the conversion began but was not completed before December 23, 1985, was approved by FSA to continue, and the conversion was completed by January 1, 1995.
CPD	<u>COE Permit with Mitigation:</u> A converted wetland authorized by a permit issued under Section 404 of the Clean Water Act. Production of agricultural commodities is allowed subject to conditions of the permit.
CMW	<u>Categorical Minimal Effect:</u> A wetland that meets specific categories of conversion activities that have been determined by NRCS to have minimal effect, individually and cumulatively, on the functions and values of the wetland and the wetlands in the watershed.
CW	<u>Converted Wetland:</u> A wetland converted between December 23, 1985, and November 28, 1990. Production of an agricultural commodity or additional manipulation of these areas will yield USDA benefit ineligibility. Also, these areas are wetlands converted after December 23, 1985, by a county, drainage district, or similar entity. For these instances, production of an agricultural commodity or forage for mechanical harvest or additional manipulation will cause ineligibility for USDA program benefits.
CW+year	<u>Converted Wetland + (year the conversion occurred):</u> A wetland converted after November 28, 1990, where the USDA program participant is ineligible for benefits until the wetland is restored or mitigated unless an exemption applies.
CWNA	<u>Converted Wetland Non-Agricultural Use:</u> A wetland converted after November 28, 1990, to a use other than agricultural commodity production. Label not used for certified wetland determinations completed after 2/2008.
CWTE	<u>Converted Wetland Technical Error:</u> A wetland converted or commenced after December 23, 1985, based on an incorrect NRCS determination. This label does not apply to obvious wetlands as defined in the National Food Security Act Manual.
FW	<u>Farmed Wetland:</u> A wetland that was manipulated and planted before December 23, 1985, but still meets inundation or saturation criteria. These areas may be farmed and maintained as documented before December 23, 1985, as long as they are not abandoned (i.e., management or maintenance for commodity production ceased for 5 consecutive years).
FWP	<u>Farmed Wetland Pasture or Hayland:</u> A wetland that is used for pasture or haying, was manipulated and planted before December 23, 1985, but still meets the inundation or saturation criteria. These areas may be farmed and maintained as documented before December 23, 1985, as long as they are not abandoned (i.e., management or maintenance for commodity production ceased for 5 consecutive years).
MIW	<u>Mitigation Exemption:</u> A converted wetland, farmed wetland or farmed wetland pasture of which the acreage, functions and values lost have been compensated for through an NRCS-approved mitigation plan.
MW	<u>Minimal Effect Exemption:</u> A converted wetland that is exempt from the wetland conservation provisions of the Food Security Act of 1985, as amended, based on NRCS determination that the conversion has or will have a minimal effect, individually and cumulatively, on the functions and values of the wetland and the wetlands in the watershed.
MWM	<u>Mitigation Site:</u> This site of wetland restoration, enhancement, or creation serving as mitigation for the mitigation exemption (MIW) site.
NI	<u>Not Inventoried:</u> An area where no wetland determination has been conducted. Label not used for certified wetland determinations completed after 2/2008.
NW	<u>Non-Wetland:</u> An area that does not contain a wetland. Also, includes wetlands converted before December 23, 1985, but a commodity crop was not produced and the area does not meet wetland criteria (not been abandoned).
PC	<u>Prior Converted Cropland:</u> A wetland converted to cropland before December 23, 1985, and as of December 23, 1985, was capable of being cropped and did not meet farmed wetland hydrology criteria. These areas are not subject to the wetland conservation provisions of the Food Security Act of 1985, as amended, unless further drainage manipulation affects adjacent wetlands.
PC/NW	<u>Prior Converted Cropland/Non-Wetland:</u> AN area that contains both PC and NW.
TP	<u>Third-Party Exemption:</u> A wetland converted after December 23, 1985, by a third party who is not associated with the participant, and the conversion is not a result of a scheme or device. A third party does not include predecessors in interest on the tract, drainage districts, or other local government entities.
W	<u>Wetland:</u> An area meeting wetland criteria that was not converted after December 23, 1985. These areas include farmed wetlands and farmed wetland pasture that have been abandoned.
WX	<u>Manipulated Wetlands:</u> A wetland manipulated after December 23, 1985, but the manipulation was not for the purpose of making production possible and production was not made possible. These areas include wetlands manipulated by drainage maintenance agreements.

 Submitting Application to:  Drainage Board  Administrator for Administrative Approval

**NOTE:** This application must be accompanied by a detailed site plan, showing:  
 1. The location of the proposed drainage system; to include the inlet, outlet, & all drains.  
 2. The direction of the water flow.  
 3. The destination of water from the outlet, up to 1 mile.

Landowners affected will be notified by the Drainage Administrator. The Township Board Chairman will also be notified and a copy of this application will be attached. For Administrative Approval, provide waivers (Appendix B) from landowners ½ mile upstream, 1 mile downstream, and a ¼ mile buffer on both sides of the drainage area.

List of all landowners ½ mile upstream, 1 mile downstream, and ¼ mile buffer on both sides:

	NAME	ADDRESS	PHONE
