Mitchell, SD 57301

**Subject:** Closure of Department of Environment and Natural Resources File # 2019003 pertaining to the removal of three 10,000 gallon underground storage tanks at the former All Star Convenience Store, 1519 S. Burr St, Mitchell, SD.

Dear Mr. Meyers

The South Dakota Department of Environment and Natural Resources (DENR) has reviewed the case file for the above referenced facility. As a result of the review, the department has determined that the referenced location will be recorded as a "Clean Site" and file #2019003 can be closed.

DENR has reviewed the information provided in GeoTek Engineering & Testing Services, Inc's Underground Storage Tank (UST) Closure Assessment dated May 13, 2019. Based upon that review the DENR concurs that an identifiable release has not occurred at the sampled areas of the noted UST removal location. Therefore, the department will not require any further assessment at this time. However, please be aware that if environmental problems arise from contamination that may not have been detected, you might be responsible for conducting additional assessment and remediation.

Should you have any questions concerning this letter, please contact Marshall Brown of my staff. Thank you for your cooperation in protecting the ground water resources of South Dakota.

Sincerely,

Kim McIntosh, Administrator  
Ground Water Quality Program  
SD DENR  
(605) 773-3296
