CONSIDER LOWRIE DRAINAGE REQUEST

Glen Lowrie received a drainage permit in 2014 with the stipulation he would install and maintain a lift station, which would pump the water to the south, onto the SE ¼ of the same section; which is Section 9, T 101 N, R 60 W of the 5th P.M., Davison County, SD.

The lift station has not been maintained on a consistent basis, causing water to overflow to the northeast into the road ditch, and to the east onto Lyle Lowrie and Tim Kummer's properties. Allowing water to flow into the road ditch is in violation of the Davison County Drainage Ordinance. The pump runs when Mr. Lowrie wants to put fuel in the pump.

The location of the drainage project is the W ½ of the NE ¼ of Section 9, T 101 N, R 60 W of the 5th P.M., Davison County, SD.

Application originally received: June 2013

Drainage System illegally installed: June 2013

Revised outlet approved: July 15, 2014

Applicant notified of current meeting: August 13, 2019

Neighbors notified of current meeting: August 13, 2019

The following discussion was held.

Mr. Lowrie stated that his lift station is designed correctly, and the pipe is sized properly. He said it hasn't been dry enough to allow him to get the project done. He said the only time there is run-off is when it rains.

Currently, he is running a 2" transfer pump. His generator went down so he currently has no power.

Chairman Larson asked where the outlet is going to be. Lowrie said it has to go up a hill in order to get to the outlet.

Mr. Lowrie said he will go to Central Electric and NW Energy and put a transformer in. He said it will need PUC approval so he couldn't give an exact time frame.

Edinger stated that his heart burn is this project could have been done several years ago.

Buchholz asked if the case had been turned over to the States Attorney. Bathke stated yes, but then the Board allowed Mr. Lowrie to install a pump.

Mr. Lowrie stated that he will try to dig back to de-water the hole. He said it would be closed by the time they have power.

Edinger stated that he would propose a 60-day deadline to get this project completed.

Buchholz said that the Board heard promises 5 years ago and didn't see any progress.

Bathke stated that he has received approximately 25 phone calls from neighbors, complaining.

Edinger said the system must be designed correctly and engineered correctly and Mr. Lowrie won't be liable. If it isn't designed correctly and engineered correctly, Mr. Lowrie will be liable.

Motion by Bode, second by Kiner to allow Mr. Lowrie 60 days to get this project done. Upon the deadline, there will be a fine imposed, as per Section 6:04 of the Drainage Ordinance, of \$250 per day until it is complete. Mr. Lowrie is also to report to Drainage Administrator Bathke on a regular basis the progress being made. A roll call vote was taken as follows. Buchholz – aye, Bult – aye, Edinger – aye, Kiner – aye, Bode – aye, Klumb – aye, Larson – aye. Motion carried.

PUBLIC INPUT

Mary Harris and Dave Harris appeared before the Board to ask that a culvert be placed next to the bridge on 256th St. between 409th Ave. and Hwy 37. Chairman Larson stated there all kinds of other issues to be addressed.

Bathke said silt is a major issue and the drainage system is at it's limits. The fact that Kibbee Ditch overflows into her field is a landowner issue, not a County issue. The County is not responsible for Kibbee Ditch, however, Bathke will get a bid to see how much it would cost to clean it out.

Edinger suggested the formation of a Drainage District as Kibbee Ditch is owned and is supposed to be maintained by the landowners. One landowner cleaning out their portion isn't going to do anybody any good.

SET DATE AND TIME FOR NEXT MEETING

Chairman Larson set October 22, 2019 at 7:00 p.m. as the next meeting date and time.

ADJOURN

At 8:08 p.m., Chairman Larson adjourned the meeting.
