Subject: Gun Range on Kelley Property

I would like to take this opportunity to address the idea of a gun range on the Kelley Property. I reside on the Island on the west end of the lake, along with many others including Maui and Dailey Drives. The Kelley property is less than a mile from us as the crow flies. We are within the city limits, and I must believe the noise from this would be unbearable. One reason is the fact that sound travels over water.

I am totally against this project. We currently live in a quiet peaceful neighborhood, and I do not wish to give up this quiet. I am certainly not against guns or shooting, but a gun range should be further away from the city limits.

Please consider my request to stop this project and save the peacefulness of the citizens residing in the city of Mitchell.

Thank you for your consideration,
Richard Rozum
