Re: Closure designation for DANR File #2025.166; pertaining to a diesel release at
1st Street and Foster Street, Mitchell, South Dakota.

Dear Mr. Fayzulloev:

The Department of Agriculture and Natural Resources (DANR) has reviewed the available information regarding the above referenced incident. Based on the information provided, there is no risk to human health or further risk to the environment. Therefore, the department is closing this case.

The City of Mitchell and the Mitchell Fire Department responded to the incident and performed all cleanup actions on behalf of the responsible party, Get Busy Boys Transit. Floor Dry was applied to contain the release. A small amount of fuel entered a utility catchment for fiber optic and a storm drain. The City pumped fuel from both locations. Recovered fuel was mixed with contaminated Floor Dry and materials were properly disposed at the Mitchell Landfill. If any future problems arise related to this release, Get Busy Boys Transit may be responsible to perform assessment and further cleanup.

If you have questions or concerns about this site's Closure designation, please contact Jackie McGuire of my staff at 605.773.3296. DANR is thankful for the efforts from the City of Mitchell and the Mitchell Fire Department for cleaning up this release.

Sincerely,

Terry Florentz, P.E.
Administrator
Inspection, Compliance, and Remediation Program
